

RECORD OF EMPLOYEE INTERVIEW

Explanation of Form

What it is used for: To be used to interview project workers in order to determine that the Contractor and all subcontractors are complying with *Davis-Bacon Act*, *Contract Work Hours and Standards Act*, and *Copeland "Anti-Kickback" Act* requirements. It is used as a test against payroll information. It is also used to verify compliance with Section 3 requirements.

When it is Used: During the construction phase of the project.

Where it Goes: Grantee's Labor Standards project file.

General Instructions: Employees should be selected for interviews either at random or on the basis of suspected irregularities as determined through the site visit or Payroll Reports. The number of interviews necessary is determined by the size of the Project. **A minimum of at least one worker per trade and 25% of the total number of workers must be interviewed. Interviews must be conducted during construction a minimum of once a month** to determine the Contractor's compliance with the aforementioned federal requirements. Interviews **must** take place during the times in which **each** subcontract is being performed to assure that all trades are covered. This may mean that interviews will have to be conducted during evening or weekend hours.

Form Instructions: Items 1a – 1c: Self-explanatory.

Items 2a – 2d: Enter the employee's full name, a telephone number where the employee can be reached, and the employee's home address. Many construction workers use a temporary address in the locality of the project and have a more permanent address elsewhere from which mail may be forwarded to them. Obtain a more permanent address, if available.

Items 3a – 4c: Enter the employee’s responses. Ask the employee whether they have a pay stub with them; if so, determine whether the pay stub is consistent with the information provided by the employee.

Items 5 – 7: Try to get specific responses from the employee so it is easier to verify that the work observed is consistent with the job classification listed on the payroll report. For example, the job classification (#5) must identify the trade involved e.g.; Carpenter, Electrician, Plumber, etc.

Items 8 – 12b: Self-explanatory. If the employee will not sign the form, just note it in the appropriate box.

Items 13 – 15c: These items represent some of the most important information that can be gathered while conducting on-site interviews. Please be specific about the duties you observed the employee performing. It may be easiest to make these observations before initiating the interview. Please record any comments or remarks that may be helpful. For example, if the employee interviewed was working with a crew, how many workers were in the crew? What activities was the employee doing e.g.; dumping gravel, laying down pipe, connecting pipe in a ditch, etc. What tools and pieces of equipment was the employee using e.g.; shovel, level, pipe, pry bar, etc.

The level of specificity that is warranted is directly related to the extent to which interview(s) or other observations indicate that there may be violations present. If interviews indicate that there may be underpayments involving a particular trade(s), the interviewer is encouraged to interview as many workers in that trade(s) that are available.

Items 16 – 17b: The information on the form may be reviewed for general compliance, initially. For example, are the job classification and wage rate stated by the employee compatible with the classifications and wage rates on the applicable wage decision? Are the duties observed by the interviewer consistent with the job classification?

After completion of the interview the Contract Compliance Officer **must** note on the form whether the employee’s statements were consistent and whether they verified what was observed.

The Contract Compliance Officer must cross reference the information on the Record of Employee Interview form with information from the Contractor's weekly Payroll Report, the Register of Assigned Employees, and the Wage Decision, indicating so by filling out the bottom part of the form. Appropriate action must be initiated to clear any discrepancies and questionable items.
